

Aufbauanleitung LIGHTFRAME

Assembly Instruction

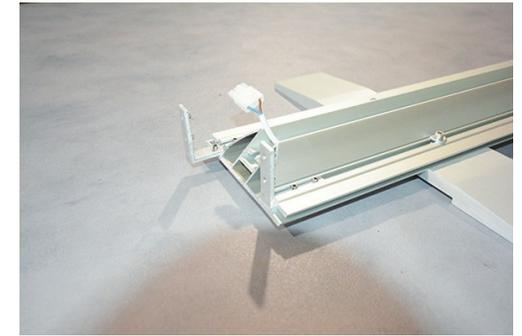

Remove the parts from the transport bag.

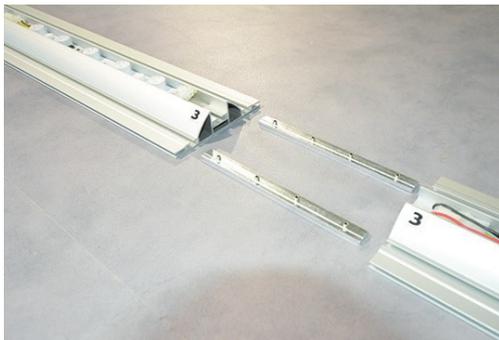

Place the frame elements on the floor. The elements are numbered.

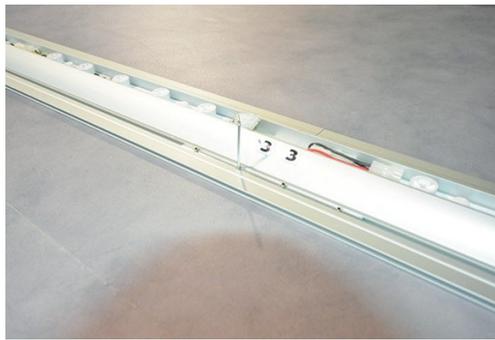

Screw the lower profile with the feet.

Insert the four connecting brackets on the left and right into the lower profile.

Insert the connecting strips into the vertical profiles. Tighten the screws.

Insert the horizontal support connection.

Connect the side vertical profiles to the top horizontal profile(s).

Aufbauanleitung LIGHTFRAME

Assembly Instruction

Screw the profile elements.

Position the frame elements.

Connect the frame elements.

Place the frame and connect the LED strips together.

Connect the frame to a power supply and check the function of the LED strips.

Now attach the graphic panel. Insert the piping tape into the profile recordings, start in the corners.

The LED fair wall is ready.
